

MySQL Installation

- 1) All downloads for MySQL are located at <https://dev.mysql.com/downloads/mysql/>
- 2) Select the appropriate installer considering your operating system. For example, if your operating system is Windows, click Mysql Installer for Windows.
- 3) If your operating system is Windows, click Windows (x86, 32-bit), MSI Installer download which has the larger file size

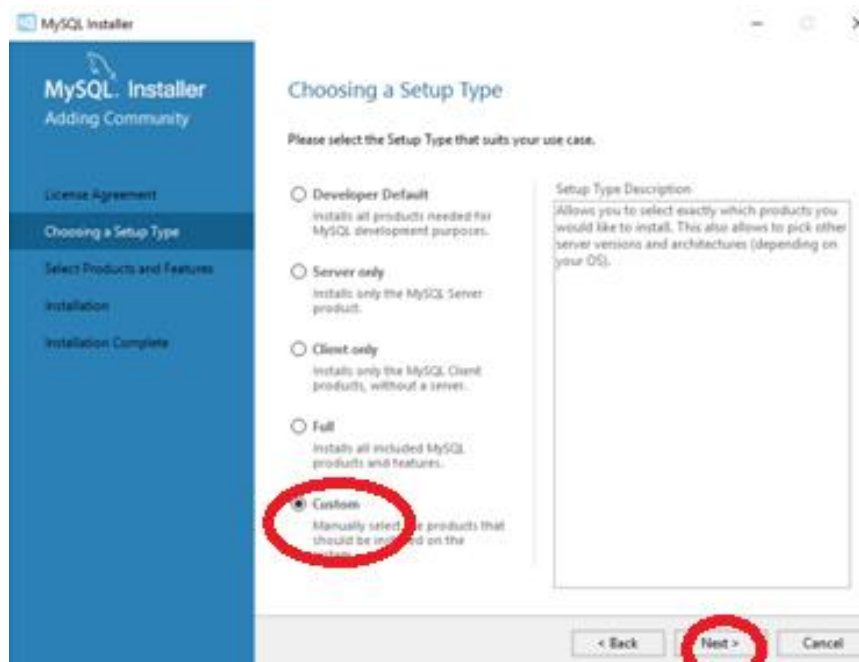

- 4) Click “No thanks, just start my download” and download
- 5) Double click “mysql-installer-community-8.0.12.0.msi” and initiate the installation.
During the installation be sure that you have an Internet connection.
- 6) Follow the steps.

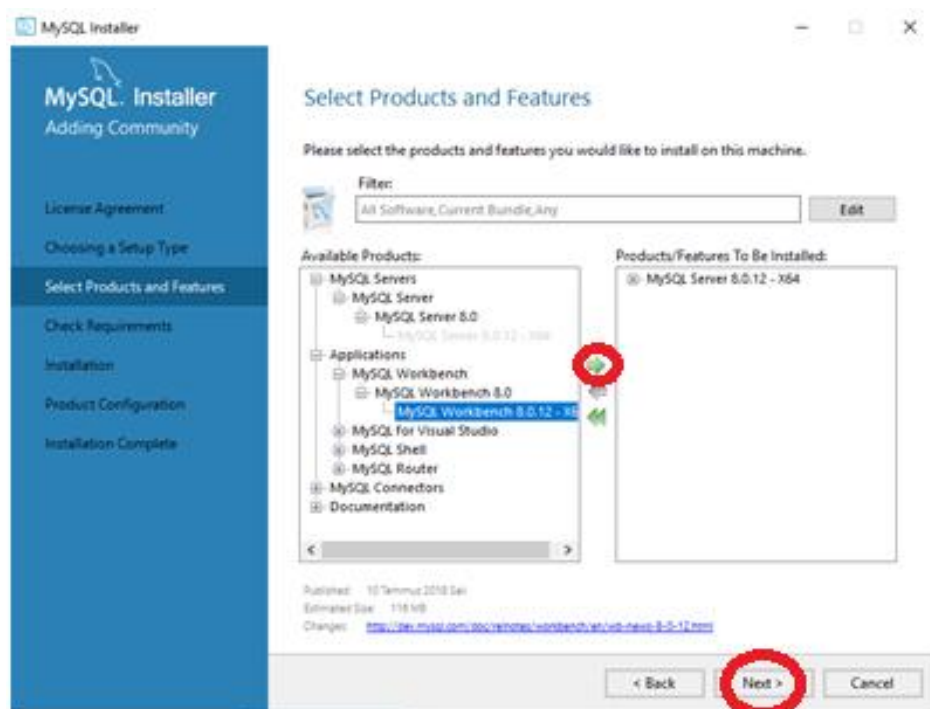

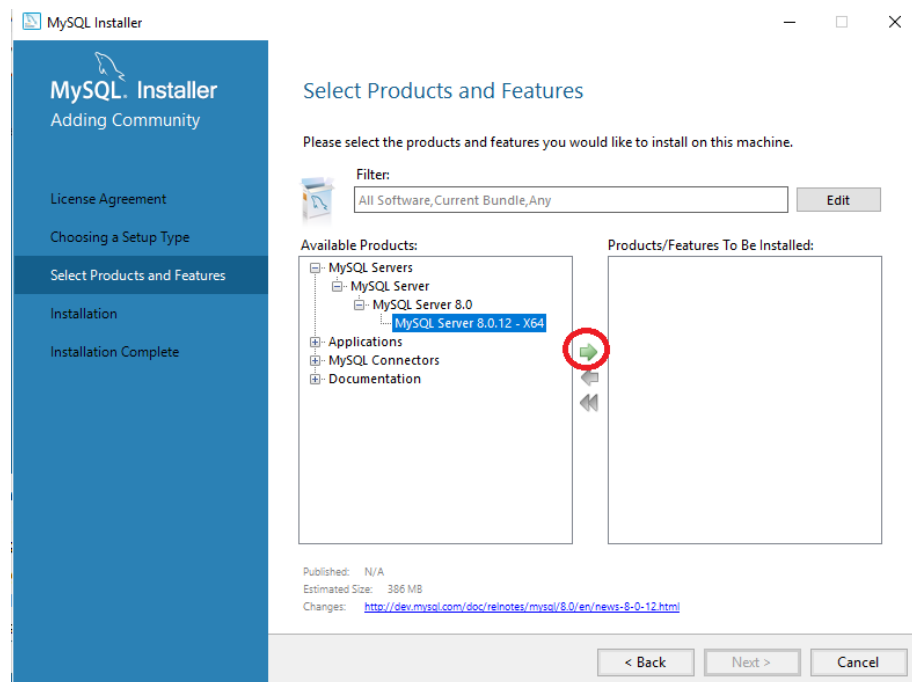

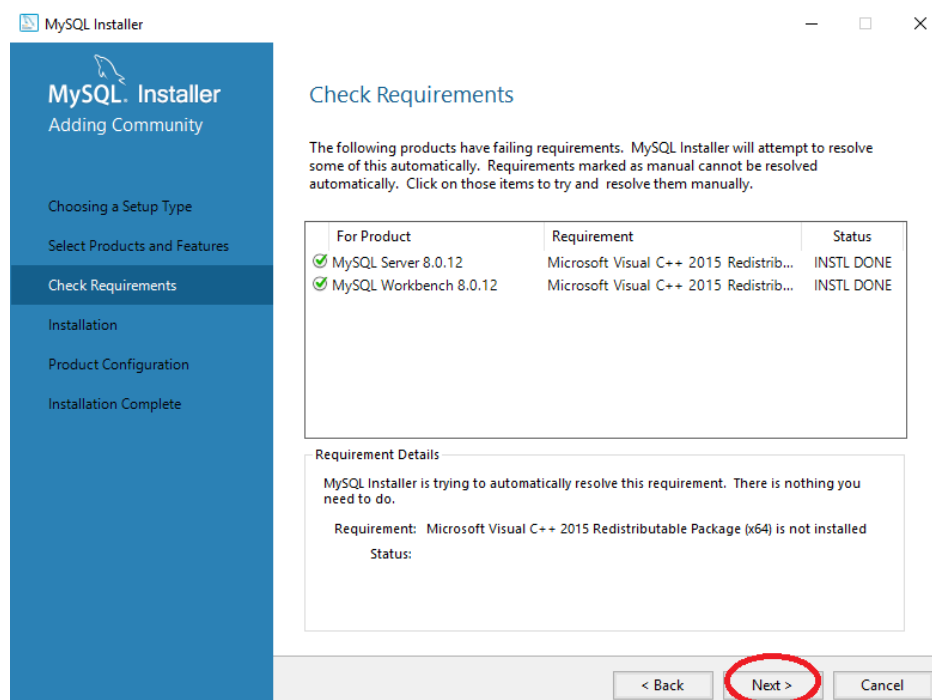

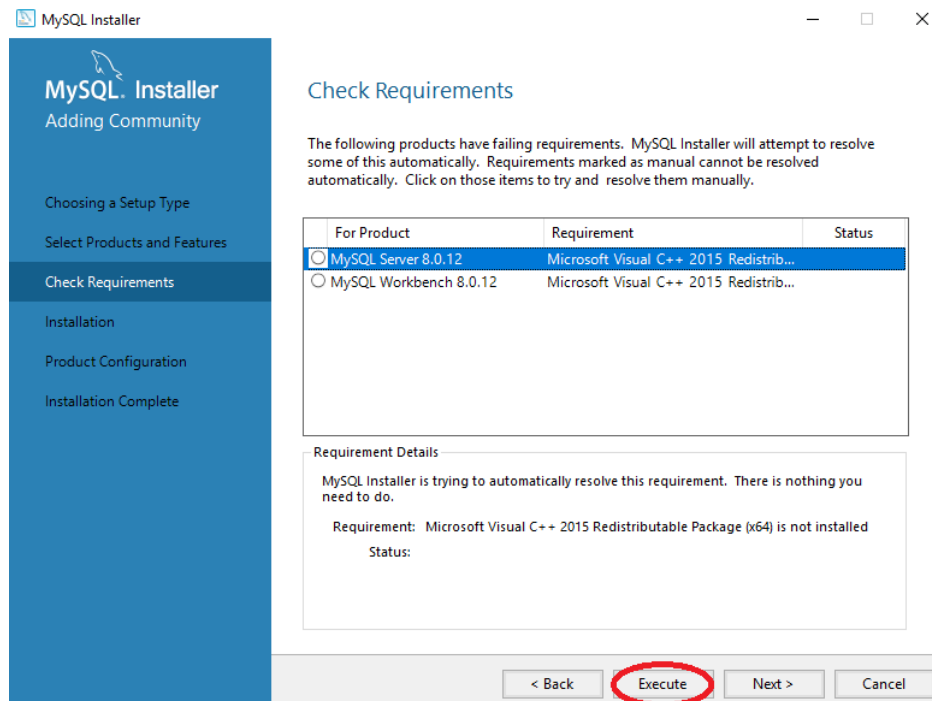

7) Choose **Custom** installation.

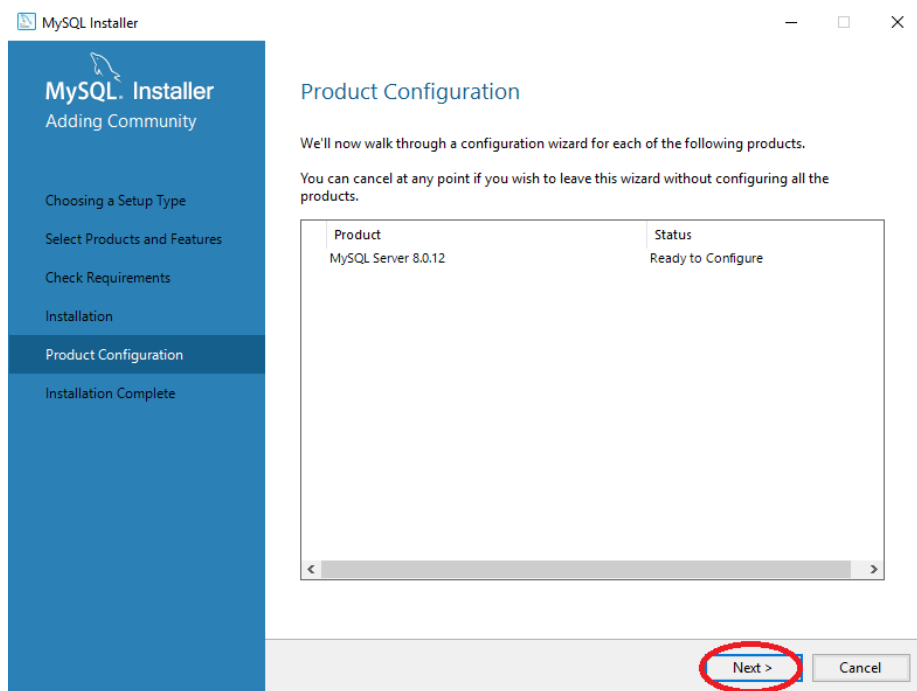

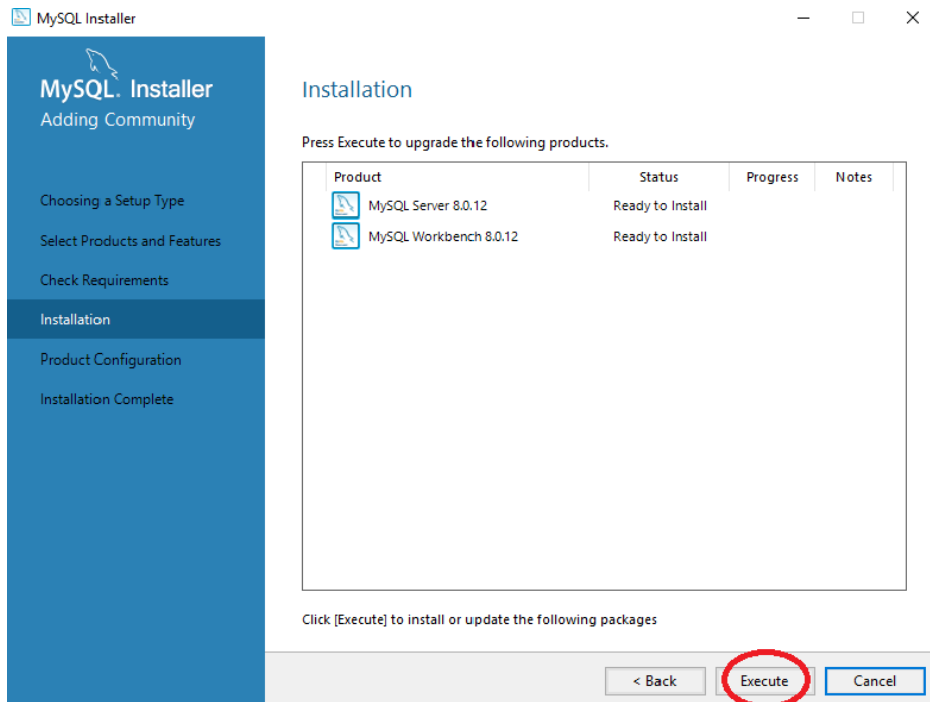

8) Select “MySQL Server” and “MySQL Workbench”

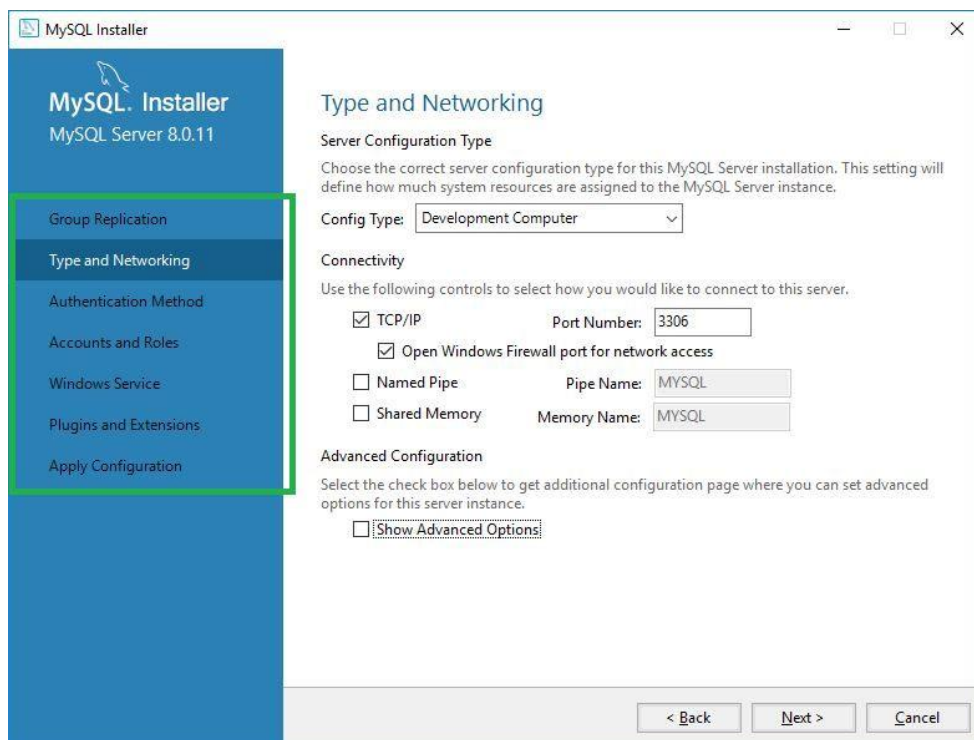

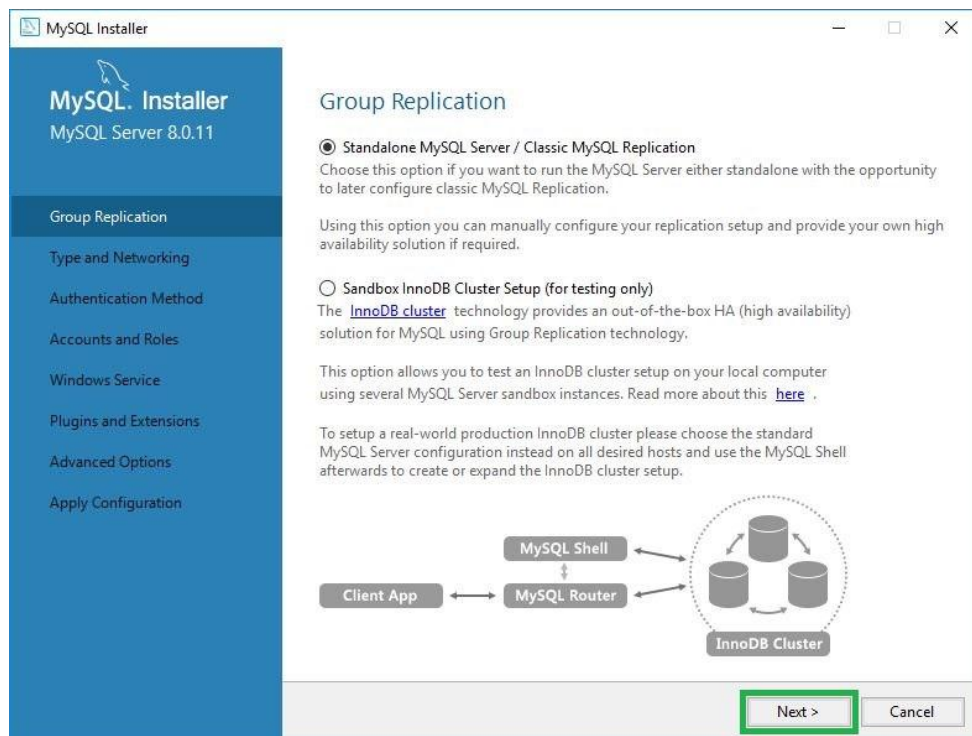

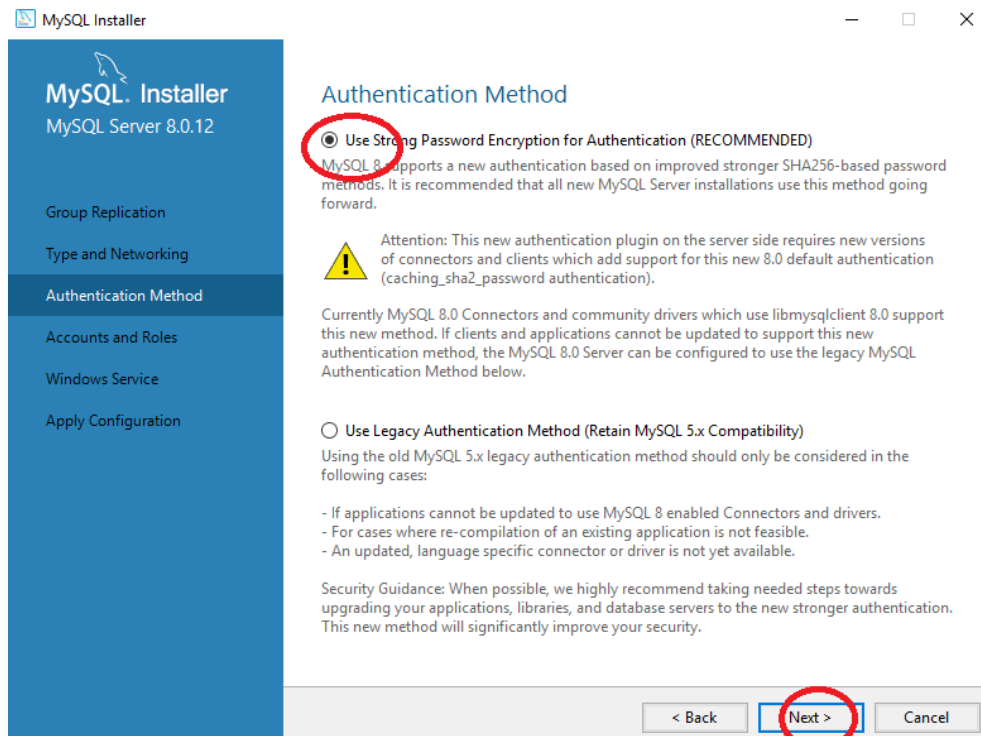

- 9) “Microsoft Visual C++ 2015 Redistributable” package may not be installed on your computer. If it has not installed, press “Execute” button to install it.(Internet connection is required)

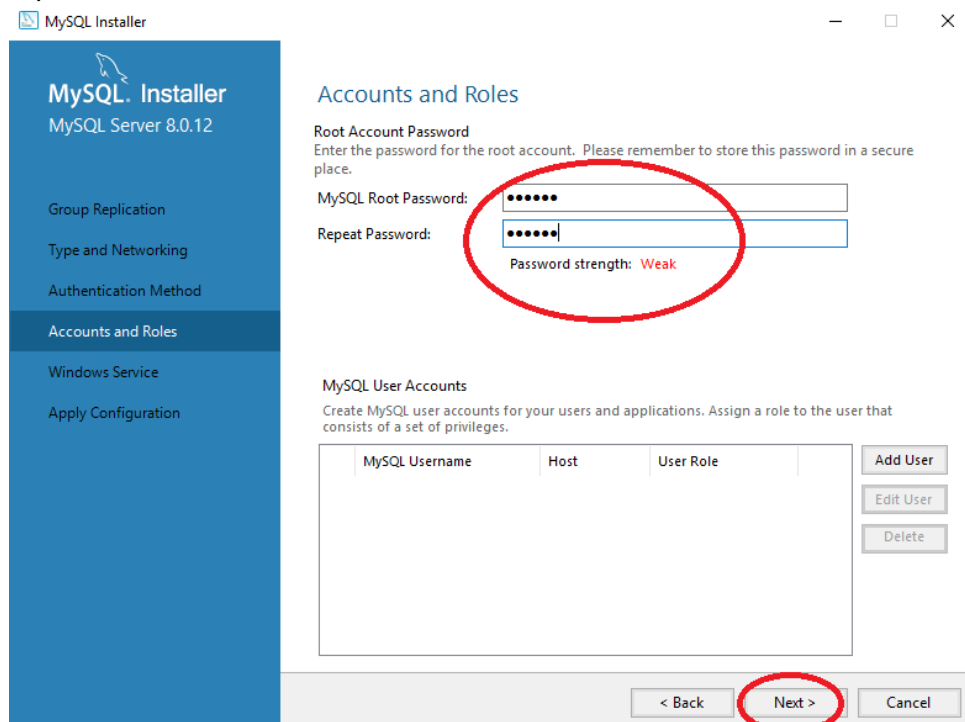

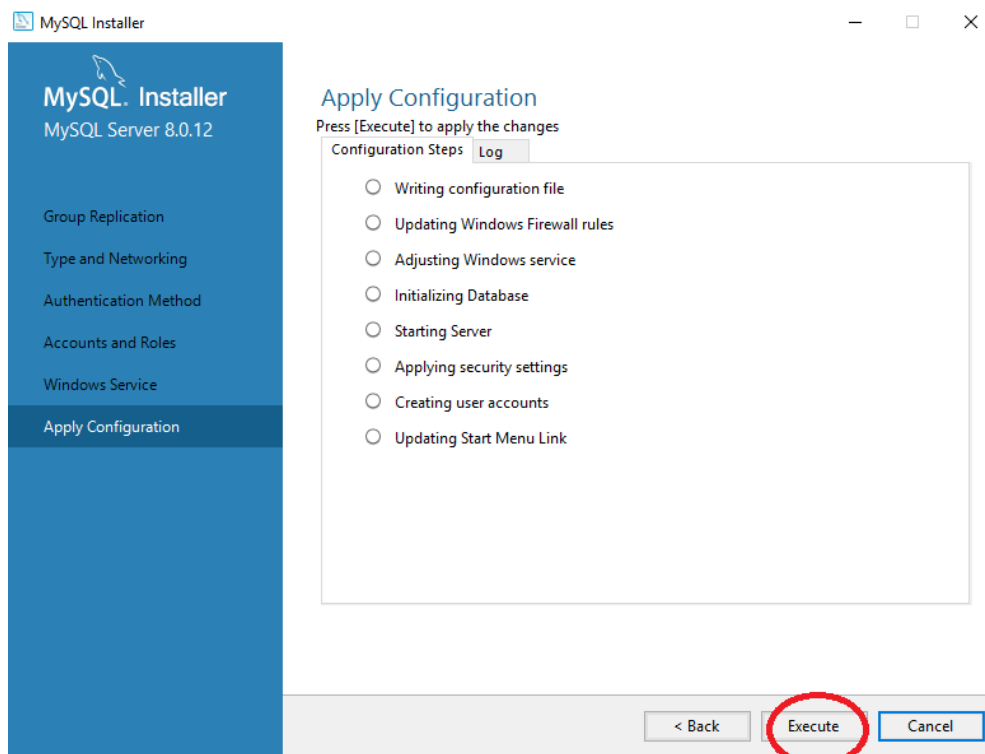

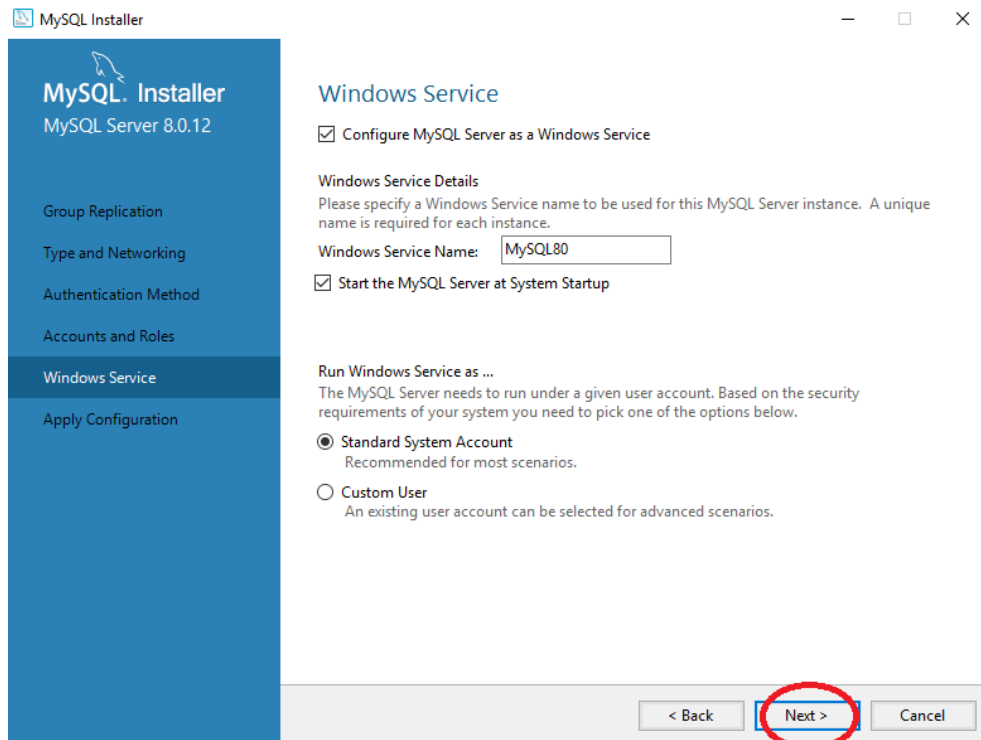

10) Choose “**Standalone MySQL Server**”.

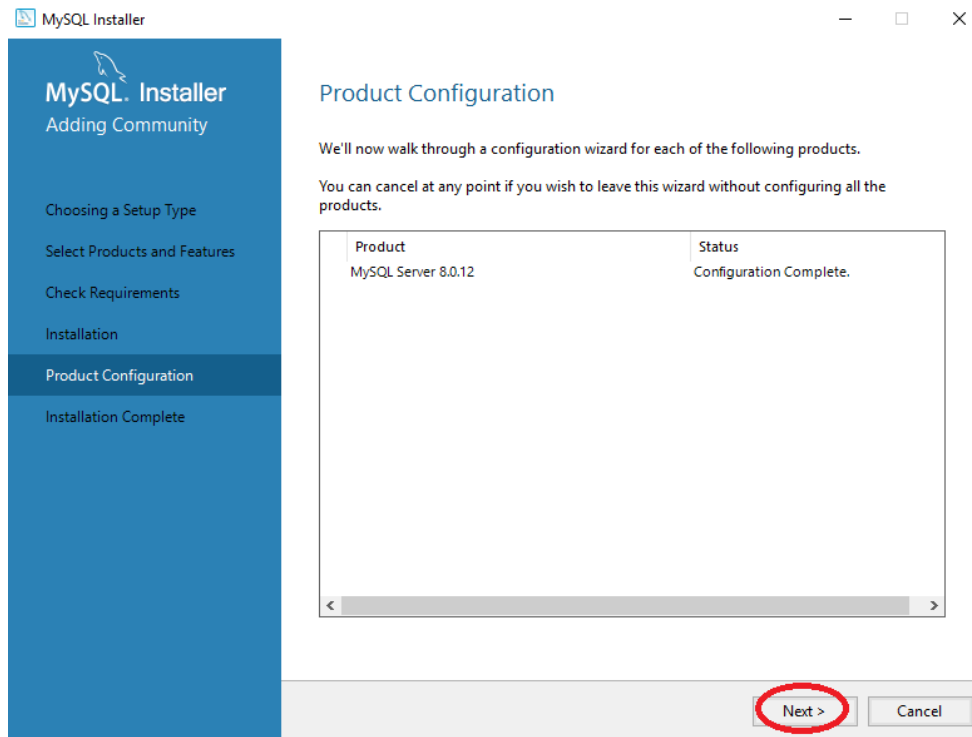

11) Enter a password for root account.

12) After the installation is completed open MySQL Workbench

How to Open Connection on MySQL Workbench

1) Create a connection by clicking “+” icon.

2) Enter a connection name and press “Test Connection” button.

Setup New Connection

Connection Name: CENG302 Tutorial Type a name for the connection

Connection Method: Standard (TCP/IP) Method to use to connect to the RDBMS

Parameters SSL Advanced

Hostname: 127.0.0.1 Port: 3306 Name or IP address of the server host - and TCP/IP port.
